

WORK SAFE OR NOT AT ALL

1. HEAD PROTECTION

You must wear a proper helmet at all times within the boundaries of the construction site. *Exception: The helmet-free zone as specified by the site manager.*

2. HAND PROTECTION

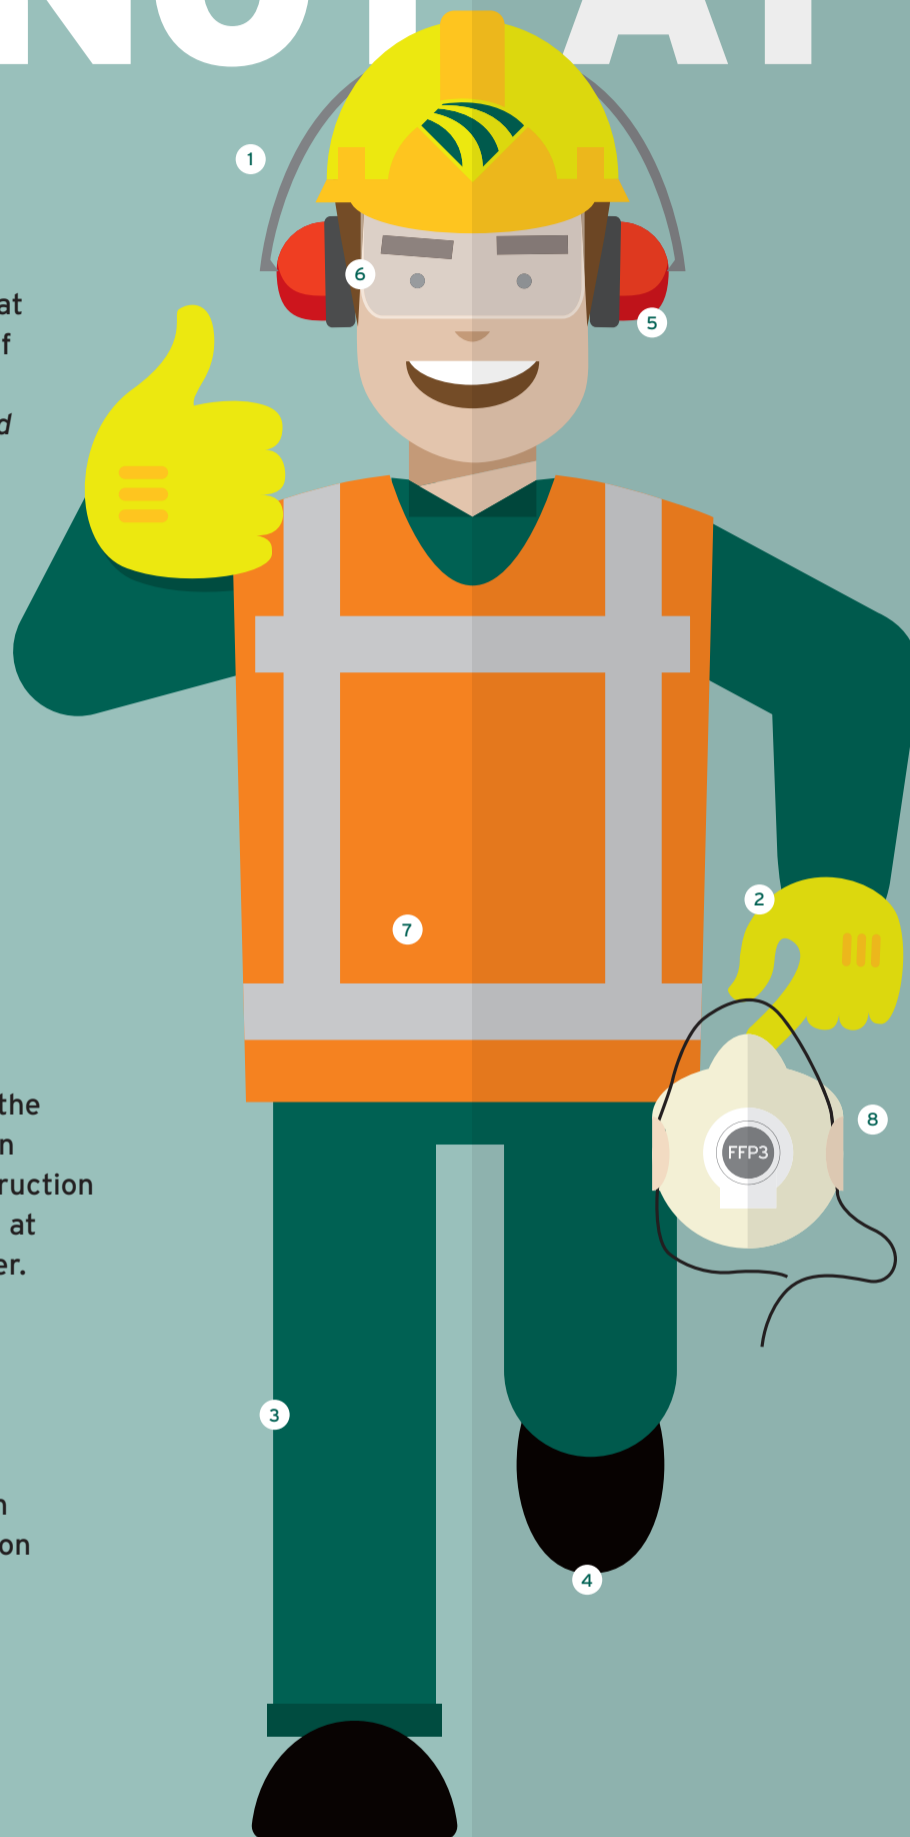

Wear the right gloves for the right job. The code on the glove tells you about the wear, cutting, tear and perforation resistance. When working with rotating machines, simply take them off.

3. LEG PROTECTION

Wear trousers when working on the projects. Shorts are permitted in summer depending on the construction phase and/or activities. It is also at the discretion of the site manager.

4. FOOT PROTECTION

You must wear a proper pair of safety shoes or boots (S3) within the boundaries of the construction site at all times.

5. HEARING PROTECTION

Are you producing noise or are you working in a noisy environment? Wear your ear plugs or ear defenders. Ensure you always have a pair to hand.

6. EYE PROTECTION

You must always have a proper pair of safety goggles with you. You must wear them when carrying out tasks with a risk of injury to your eyes.

7. BODY PROTECTION JACKETS, SHIRTS AND SAFETY VESTS

Wear a jacket with long sleeves in company colours. A short-sleeved shirt is permitted in summer. Do not wear sleeveless shirts. A safety vest may be required depending on the project.

8. BREATHING PROTECTION

Work with dust extractors. If these are not effective enough or not available, use a dust mask with at least FFP3 protection.
